

Taking advantage of its publicity and reputation, Insights* has launched 'AI 100' programme that brings the brightest AI companies into great attention from the tech world and venture capitalist.

* The CB Insights is a market leading tech industry intelligence platform that analyses millions of data points on venture capital, startups, patents, partnerships and news mentions to provide premium insight and trend analysis on the most state-of-the-art technology market.

“ Think about the fundamental value chain of venture capital. Find investments, assess investments, build market leaders... CB Insights is positioned to be a market leader in helping companies find investments. ”

— Pat Grady,
Partner, Sequoia Capital

THE AI
100
2018
